Right on Time? Early Interventions and Initiatives for Promoting Employment

May 8, 2014

Presenters

Noelle Denny-Brown is a researcher at Mathematica who works with disability policy, particularly interventions that support people with disabilities in finding or sustaining employment. She is currently co-directing implementation of the Social Security Administration’s (SSA’s) Benefit Offset National Demonstration project, which is testing variants of Social Security Disability Insurance (SSDI) rules governing work and other supports. She is also leading analysis of program implementation for the national evaluation of the Money Follows the Person demonstration, funded by the Centers for Medicare and Medicaid Services. She has a master's in public administration from the University of Connecticut.

Todd Honeycutt is a health researcher at Mathematica whose work focuses on the outcomes and effectiveness of vocational rehabilitation (VR) agencies and statistics related to transition-age youth with disabilities. Honeycutt is Mathematica’s project director for the Rehabilitation Research and Training Center on Disability Statistics and Demographics, and he is a primary investigator for the Disability Research Consortium. In the past, he has reviewed international programs for youth with disabilities and examined provider use and outcomes of transitioning youth with disabilities. He has a Ph.D. in health systems and policy from the University of Medicine and Dentistry of New Jersey.

Jody Schimmel-Hyde is a senior researcher at Mathematica with primary research projects in disability policy, the employment of people with disabilities, and issues related to retirement and the elderly. She is currently leading two research projects assessing the interaction between SSA disability programs and federal and state VR programs. For the past several years, she has directed studies assessing work activity among SSA disability beneficiaries and led evaluations of SSA’s Work Incentives Planning and Assistance program and the Medicaid Buy-In program. Schimmel serves as a co-lead of the Disability Research Consortium’s training and education activities. She holds a Ph.D. in economics from the University of Michigan at Ann Arbor.
Discussant

Jade Gingerich is director of employment policy at the Maryland Department of Disabilities and project director for Maryland’s newly awarded PROMISE grant. Before that, she served as executive director of the Maryland Governor’s Committee on Employment of People with Disabilities. As the director of Maryland’s Medicaid Infrastructure Grant, her systems change accomplishments included creation of Maryland’s Medicaid Buy In, the development of an Employment First Policy for the Developmental Disabilities Administration, and strengthening Maryland’s benefits counseling infrastructure. Gingerich received a master’s of science in special education with a specialization in transition services from Johns Hopkins University.
